

**DIG SINGLE STATION BATTERY OPERATED CONTROLLER**

Complete with 1" valve

- 7-day programming schedule
- Four start times per day in irrigation mode
- Monthly water budgeting from 10%-190% in 10% increments
- Rain delay up to 30 days

Order No.	Description	List
510.100	1 STATION ON 1" VALVE	\$242.84
<ul style="list-style-type: none"> <li>• Power source: 9-volt DC (two 9-volt DC alkaline battery)</li> <li>• Battery life: up to 1 year</li> </ul>		

**DIG 6 STATION BATTERY OPERATED CONTROLLER**

3 wire DC solenoid - fits Toro and Irritrol valves

1" In-line Valve

- Operates up to six valves plus master valve
- Four button keypad with an integrated large liquid crystal display
- Can operate two valves simultaneously
- Automatic, semi-automatic and manual operation
- Independent programming for each valve
- Powered by two 9-volt alkaline batteries

Order No.	Description	List
560.000W	4 STATION BATTERY TIMER	\$289.27
337.100	1" VALVE C/W DC SOLENOID	\$102.45
337.000	DC SOLENOID	\$77.90

**DIG 6 STATION IRRIGATION & PROPAGATION CONTROLLER**

- Used for irrigation and propagation
- Independent programming of start time, run time and day of the week for each valve
- Four start times per program per valve
- Can operate two valves at a time
- Rain or moisture sensor terminal hook up

Order No.	Description	List
5006-IP	6 STATION PROPAGATION	\$244.88
<ul style="list-style-type: none"> <li>• Watering durations from 1 second to 1 hour in 1 second increments in propagation mode</li> <li>• Up to sixty start times per hour with every 1, 5, 15, 30 minutes and 1 hour for any limited period of the day with specific time setup every day in propagation mode</li> </ul>		

**DIG HOSE END BATTERY POWERED TIMER**

**DIG HOSE END BATTERY POWERED TIMER**

- 3/4" FHT inlet and MHT outlet
- Six buttons with large integrated liquid crystal display
- Watering durations from 1 minute to 11 hours and 59 minutes in 1 minute increments
- 7-day calendar schedule
- Four start times per day
- Weather resistant
- Manual irrigation cycle via the controller

Order No.	Description	List
9001D	BATTERY HOSE TIMER	\$88.60
MTIMER	MANUAL HOSE TIMER	\$26.75

Manual 2 Hour Water Timer. Brass Swivel Connector. No Wiring or Batteries Required.

**PHYTOTRONICS ELECTRONIC LEAF**

Works on the principle of evaporation – The weight of the mist settling on the stainless steel screen turns off the solenoid.

When the water evaporates, the "leaf" rises and the cycle starts over by again turning on the solenoid valve.

Order No.	Description	List
ELEAF	ELECTRONIC LEAF	\$506.32

Leaf is adjustable to provide more or less moisture to plants or cuttings.

Designed to be operated on 24 volt AC current.
