

SENINGER PRE-SET REGULATOR 3/4" HOSE THREAD

Order No.	Description	List
PRH10	10 PSI PRESSURE REG.	\$15.27
PRH15	15 PSI PRESSURE REG.	\$15.27
PRH20	20 PSI PRESSURE REG.	\$15.27

.1 - 7 gpm fl w rate. Maximum 100 PSI inlet pressure

Order No.	Description	List
PRH25	25 PSI PRESSURE REG.	\$15.27
PRH30	30 PSI PRESSURE REG.	\$15.27

1" SENINGER PRE-SET PRESSURE REGULATOR

Order No.	Description	List
PRP20H	1" -20 PSI PRESSURE REG.	\$24.00
PRP25H	1" -25 PSI PRESSURE REG.	\$24.00
PRP30H	1" -30 PSI PRESSURE REG.	\$24.00

.2 - 20 gpm fl w rate. 10 -32 gpm for high fl w

Order No.	Description	List
PRP30HF	1" X11/4" 30PSI HIGH FLOW	\$38.19

Maximum 150 PSI inlet pressure

3/4" DIG ADJUSTABLE PRESSURE REGULATOR

Order No.	Description	List
PR-ADJ-L	12 - 35 PSI ADJ REG.	\$38.02

.2 - 22 gpm fl w rate. Simple screw adjustment

Order No.	Description	List
PR-ADJ-H	28 - 60 PSI ADJ REG.	\$38.02

Reliable control regardless of fluctuations in upstream pressure or flow

Maximum 125 PSI inlet pressure

Always install pressure regulators downstream from all shut-off valves. Be sure to install pressure regulators in the proper direction. The arrow on the housing shows the direction of the flow and should always point downstream toward devices.
Most plastic regulators reduce pressure in moving water only, not static

1" SENINGER PRESSURE REGULATING LIMIT VALVE

Order No.	Description	List
PRP50S	1" 50 PSI STATIC PRV	\$40.00

CHANGES STATIC PRESSURE

.5 - 18 gpm fl w rate. Maximum 125 PSI inlet pressure

CAN BE INSTALLED UNDER CONSTANT PRESSURE

Seninger's Pressure Regulating Limit Valve is used in place of standard pressure regulators to limit static (no flow) water pressure when a shut-off valve is used downstream of regulation point. It limits downstream pressure and protects downstream components. Seninger regulators maintain a constant preset outlet pressure while handling varying inlet pressures.

1/4" BARBED PRESSURE COMP. MODULE

Order No.	Description	List
PCM-6	6.5 GPH PC MODULE	\$2.23
PCM-11	11 GPH PC MODULE	\$2.23

Ideal for running drip /micro off of standard spray or rotor zones

Order No.	Description	List
PCM-21	21 GPH PC MODULE	\$2.23

Maximum 50 PSI inlet pressure

BRASS STATIC PRESSURE REDUCER

Order No.	Description	List
PRV-007	3/4" 25-75 PSI REDUCER	\$110.52

Can be used on the main line before any shut off valve(s)

Order No.	Description	List
PRV-010	1" 25-75 PSI REDUCER	\$207.39

Maximum 300 PSI inlet pressure
